## Equipotential connection

K110-A 11/2010

**PRODUCT PRESENTATION**

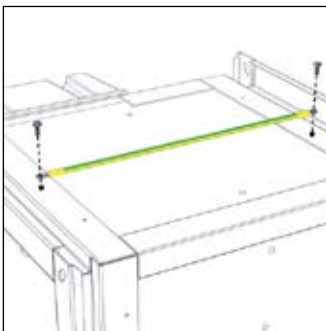

An equipotential connection is an electrical cable that brings all the conductive parts of the installation, interrupted by the fire damper, to the same potential and therefore restores the earthing.

**LIST OF PARTS**

Description	Characteristics	Number
Earthing cable 295 mm	E-KABL-AARD	5
Fastening screws	DIN 7504 N42	10

**APPLICATIONS EQ****MOUNTING**

Mount the cable onto the frame of the fire damper with the thread cutting screws.

If the damper is manipulated in any other way than described in this manual, Rf-Technologies will decline any responsibility and the guarantee will immediately expire!
